Mist Technologies

Milestones

2018 PortaMist was founded, launching our journey to revolutionize misting technology.

2019 Expanded product range to include portable misting systems and mobile mist-breeze fans.

2020 Introduced advanced dry mist systems for humidity control and aesthetic enhancement.

2021 Expanded into online and international sales, reaching a wider audience with our innovative solutions.

2022 Implemented the WOW Campaign, emphasizing our commitment to superior products, service, and client satisfaction.

2023 Launched new high-pressure and medium-pressure systems, further enhancing our product offerings.

2024 Recognized for exceptional service and quality, continuing to lead the market with innovative misting solutions.

Our Services

PortaMist
Mist Technologies

Fine Mist Cooling:

Outdoor Cooling Range:

Portable

Our portable collection comes in a Sturdy Plastic Case for easy transport. It includes features like minimal power usage, quiet operation, delicate mist, push-lock connectors, easy-to-clean filter, and adjustable fan.

Our Service

PortaMist Mist Technologies

Fine Mist Cooling:

Outdoor Cooling Range:

Mobile

Our Mobile Misting Fan Range offers specialized units for areas where misting is challenging, ensuring complete coverage. These versatile fans provide fine mist cooling and double as mobile ads. Features include 50L tanks, 600mm fan heads, safety features, and replaceable filters.

Our Service

PortaMist
Mist Technologies

Fine Mist Cooling:

Outdoor Cooling Range:

Permanent

Installing permanent misting systems is the most effective way to cool large outdoor spaces with a fine mist, creating a pleasant environment, increasing humidity, and reducing dehydration.

Our Service

PortaMist
Mist Technologies

Fine Mist Cooling:

Large Fine Mist Features:

Ponds

Our technology enhances ponds, dams, and water features by blending fine mist, creating a captivating effect both day and night, especially when illuminated.

Our Service

PortaMist
Mist Technologies

Fine Mist Cooling:

Large Fine Mist Features:

Pools

Adding a mist system to your pool boosts year-round functionality and creates a unique atmosphere. Adding lighting enhances the ambiance, especially at night, improving the pool's visual appeal.

Our Service

PortaMist Mist Technologies

Fine Mist Cooling:

Large Fine Mist Features:

Lighting

Integrating mist with lighting enhances attractiveness, functionality, and aesthetic elegance, creating a captivating and immersive atmosphere.

Fine Mist:

AGRI Range

Greenhouses

Proper humidity, temperature regulation, and fresh air circulation are vital in greenhouses. Using a fine mist can help control temperatures and humidity levels. Optimal outcomes are achieved through advanced electronic control modules.

Our Service

PortaMist Mist Technologies

Fine Mist:

AGRI Range

Beef Cattle Dip Stations

The dip station system reduces product waste with low flow, fine mist technology. It offers precise control through electronic modules and can be automated. An efficient insecticide for ticks, fleas, and flies is available for use with the system.

Our Service

PortaMist Mist Technologies

Fine Mist:

AGRI Range

Dairy Pre-Cooling

Research indicates dairy cows suffer heat stress at 26°C, impacting milk production. Precooling stations with shade, mist, and fans can boost milk yield by up to 30%. An effective insecticide for lice, fleas, mites, and flies is available. Advanced electronic control modules can automate the insecticide application. Special insecticide for calve pens ensures hygiene and prevents health issues for calves.

Our Service

PortaMist Mist Technologies

Fine Mist:

AGRI Range

Equestrian

Fine Mist cooling systems benefit horses by creating a comfortable environment, improving mental and physical health, reducing body heat, and addressing respiratory issues. An efficient insecticide is offered for flies, ticks, lice, and mosquitoes. Additionally, a superior dip and horse shampoo with dip properties are available, along with insecticide applicators for stable spraying.

Our Service

Dry Mist:

Dry Mist Water Features:

Ultrasonic Mist Units

This technology uses silent ultrasonic vibrations to create a mist above water, enhancing the ambiance in gardens or patios. It captivates with its beauty in indoor or outdoor water features, offering professional installation or DIY options.

Our Service

Dry Mist:

Dry Mist Water Features:

Decorative Lights

Illumination plays a key role in enhancing the mist, setting a captivating ambiance. The interaction between light and mist turns your surroundings into a mesmerizing display, where the mist dances with refracted rays. Regardless of whether your feature is constructed from concrete or fiberglass, this fusion introduces a dynamic aspect, turning the lighting into a secondary focal point that elevates the charm and appeal of the mist encounter.

Our Service

Insect Control

An insecticide effective in residential, hospitality, and agricultural industries, targeting 13,000 insects. It is antibacterial, antifungal, antimicrobial, allergen-free, and odorless, approved by SABS, THALES, and agricultural authorities. The product is safe for food, humans, & pets, available in various forms like ready-to-use, dip, shampoo, & ointment.

Residential

This product is safe and odorless for residential use on various surfaces. It effectively combats insects like flies, ants, cockroaches, bed bugs, and mosquitoes. It can also be used on animals for ticks, fleas, flies, and wound treatment.

Hospitality

Insect Pro is a food-safe product for hygiene and insect control in the hospitality industry, targeting key insects like flies, cockroaches, and mosquitoes. Applicators save time and ensure thorough coverage.

Agricultural

This insecticide is versatile for general use and tailored for animals, controlling ticks, fleas, lice, mites, ants, mosquitoes, and flies. It functions as a disinfectant and wound healer, offering a superior dip product with extended intervals between dips. Applicators for cattle dip stations and horse stables save time and product.
